Summer 2023 Workshop 23-24 February 2023 Ōtautahi | Christchurch

CIGRE NZ A2 A3 B1 B2 Panels

CIGRE NZ 2023 SUMMER WORKSHOP

Our CIGRE NZ 2023 Summer Workshop brings together experts from within the power system industry, to share experiences and technical expertise on how our sector is transitioning into the future. The two-day workshop is arranged as:

23 February (Common and parallel-track sessions)

Welcome and Keynotes

High Voltage Laboratory Demonstrations & Technical Sessions

CIGRE NZ.A2: Power Transformers and Reactors

CIGRE NZ.A3: High Voltage Equipment

CIGRE NZ.B1: Insulated Cables CIGRE NZ.B2: Overhead Lines Networking and Workshop Dinner

24 February (Parallel-track sessions)

High Voltage Laboratory Demonstrations

CIGRE NZ A2, A3, B1, B2 Panel Technical Sessions

We are providing a platform for power system professionals: engineers, consultants, contractors, generation transmission and distribution owners, system operators, and researchers across New Zealand to share and discuss current practices and future directions for progressing our end-to-end renewable power systems. Our A2, B3, B4, B5, C5, C6 and D2 Panels will complete similar technical workshops in April (Auckland) and June (Wellington) of 2023.

CIGRE NZ PAST EVENTS REFLECTION

In 2017, CIGRE NZ hosted the CIGRE International Conference and Symposium with more than 200 delegates. One-day technical forums of 50 plus delegates have been held in 2018 and 2019, plus deep dive technical panel sessions embedded within eea2018, 2019, 2021, 2022 annual conferences.

To provide increased reach and value to our CIGRE members and the power system community CIGRE NZ launched a live webinar and web-tutorial series in late 2019 now attracting upwards of 100 local and international participants through COVID-19 challenges of 2020 and 2021. The technical series has covered *Insulated Cables*, *Distribution System Fault Locating*, *Transformers for Tomorrow*, *Transmission Protection with High Penetration of Renewable Sources*, *Digital Substations etc.*

In June 2020 an inaugural blended online and venue based event saw over 100 local and international participants attend, which continued n November 2021 onfully line conference with Panel symposiumconference in Whakatāne was well attended and supported by all our existing panels A2, A3, B1, B2, B3, B4, B5, C5, C6 and D2. During the year our technical s, plus an inaugural Pacific forum. November 2022, our third annual webinars, webtutes, conference symposium knowledge sharing and CIGRE international paper publications for our power systems sector continue to grow our power system expertise and knowledge.

Invitation for Sponsorship Advancing our Energy Future

We welcome you to market your brand and associate it with the electrical power system industry's practitioners and leading edge technology and solutions makers using the following sponsorships

Our CIGRE NZ 2023 Workshop is expected to attract 60+ delegates many of whom will be technology and business leaders from across the country in CIGRE's global recognition as *the* leading power systems industry knowledge base

Your sponsorship of this event will provide valuable exposure directly to those attending online and at the venue and the organisations that they represent. You will be able to showcase your company's presence within the industry to our participants

We believe the workshop will be a collegiate sharing of knowledge, experience and expertise of technologies, equipment and practices looking toward the changes and uncertainties we now face. We are looking forward to an enjoyable and meaningful event for our participants while aligning your sponsorship message with their experience of a successful event
